

SPEED-TO-LEAD PLAYBOOK

78%

of inbound leads
vanish in the first
30 minutes

78% of B2B buyers purchase from the vendor who responds first. After 30 minutes, your qualification rate drops by 21x. Here is the automated pipeline blueprint to fix it.

FREE HUBSPOT SNAPSHOT INSIDE

PIPELINE CRACKS

Where inbound deals **actually** die

The 42-Hour Delay

The average B2B company takes nearly 2 full days to respond to web inquiries.

The After-Hours Black Hole

Leads submitted after 5:00 PM sit uncontacted until the next morning.

Manual Entry Friction

Sales reps lose momentum manually updating CRM rows instead of engaging prospects.

The modern speed-to-lead blueprint

1

Lead submitted

Website form or paid ad inquiry hits your stack.

2

Instant webhook

<15 SEC

Triggers multi-channel routing the moment the form fires.

3

AI SMS / voice outreach

<60 SEC

Conversational AI qualifies intent before the lead cools.

4

Hot call booked

Straight into the HubSpot calendar with a round-robin rep assigned.

SPEED-TO-LEAD MATH

Seconds vs hours. The numbers **don't lie.**

STANDARD INBOUND • 42HR RESPONSE

~14%

connection rate

Acquisition cost skyrockets
as high-intent leads go cold.

AUTOMATED PIPELINE • <60S RESPONSE

391%

conversion lift

48% demo booking rate from
instant multi-channel
follow-up.

"Speed is not a feature. **Speed is the conversion driver.**"

FREE RESOURCE
